\$149

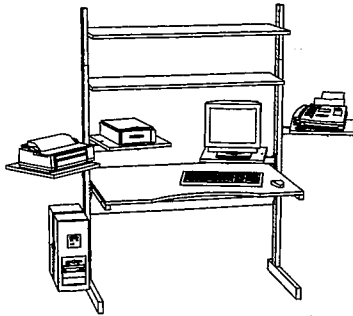

The secret behind working efficiently and feeling well at the same time is often a matter of finding the best working position. That's why **JERKER** computer table is a smart choice. You can build and adapt it to your own requirements. Set the desktop at any height between 23⁵/₈" and 47¹/₄" (60 and 120 cm). And store all you need within easy reach. Extend the height with the add-on shelf that creates an additional storage area.

You can also choose from handy accessories that include: CD and magazine holders, a CPU holder and sturdy shelves that are strong enough to hold your printer, monitor or scanner, etc. Finally, add **SIGNUM** cable trunking to keep cables out of the way. The feet on **JERKER** are adjustable to stand straight and steady on uneven floors. **JERKER** is tested and approved for business use and comes with a 10-year limited warranty.
